## Missouri News.

OREGON, MISSOURI FRIDAY, NOVEMBER 26, 1875

Jasper is the only county in the State that gave a majority against the New Michael Fitzgerald, indicted for forg-

ing a county warrant while he was president of the Buchanan County Court, has forfeited his bond and left for parts unknown.—P. C. Landmark. Judge Wm. M. Shanks, one of the county judges of Andrew county, died of pneumonia, at Rochester, on Tuesday Nov. 2. The Savannah Republican justly pronounces him "an honorable, upright man in all the relations of life,

apright man in all the relation-beloved and respected by all." Samuel Price and his niece, of Gasconade county were married last Mon-day by the Rev. Houston Lane. The ceremony is a void one, and the two according to the law, are living crimin-

A disastrous fire has just taken place at Sikestown, Scott county. A spark fell into a gin house where there were 50,000 pounds of cotton. Everything was burned up, together with two dwelling houses and two dry goods

PLEASANT HILL, Mo., Nov. 12 .- A neighborhood, and the farmers are very much troubled in regard to it. One man has lost over one hundred head since Monday, and others in the vicinity have lost in proportion. If cold weath-er sets in, it is thought possible the dis-ease may be successfully handled.

It is related that when Mrs. Molly hardson, late of Baldwin, Mo., was in her ninetieth year, as she was one day eating a fine apple, she remarked that she would like to raise some fruit of that kind. She therefore planted the seeds, one of which sprouted and became a thrifty tree. Mrs. Richardson lived to be ninety-seven years old, and ate fruit from the tree.

At the recent election for directors for the Hannibal & St. Joseph Railroad company. B. F. Carver, John F. Aek-er, J. B. Drake, H. Baxter, J. Van-Schalk, N. L. McCready, James Craigg, Nicholas Clapp and Charles E. Lowe-were elected. Only about one third of the stock was represented.

Mr. Corydon F. Craig, School Com-missioner of Buchanan county, has been working hard to secure a conven-tion of school commissioners from all the counties of the State to discuss the the counties of the State to unscale serious defects existing in the school law and recommend such measures to the legislature as the convention thinks ture as the convention thinks would be of a remedial character. A circular has been issued signed by thircircular has been issued signed by thir-teen county commissioners setting forth those parts of the law which they think need amendment, and other mat-ters conductive to the welfare of the schools are proposed to be discussed by the convention.—Caldwell Sentinel.

The Moberly Daily says: The members of Clinton grange of Randolph county, have raised this year about 300,000 pounds of tobacco. Last year they raised only 40,000. The township will produce a million pounds of the best tobacco ever raised there.

W. H. Trigg, of Boonville, has invented a system for the preservation of sweet potatoes. They can be kept according to it a whole year. When taken from the ground they are transferred to a box, where in a day room the put between layers of wheat chaff. This is the whole process.

JEFFERSON CITY, Nov. 13 .- In the case of the United States vs. John A. Joyce, the court sentenced the defendant to three years and a half in the penitentiary and assessed against him a fine of two thousand dollars.

Joyce in a long and gushing speech claimed he was guilty of no criminal intent. He expected about two years imprisonment and fine.

to Priest Maxwell in 1779 by the Spanish Government. This large tract of land, situated in Reynolds and Iron counties, Mo., is therefore declared to belong to the claimants, represented here by Warwick Lunstell.

Is NOW READY TO SUPPLY HER CUstomers both Old and New, with all kinds of Iceland-A Strange Record.

Dr. I. I. Hayes, of New York City, one of the State Assemblymen elect, in a highly entertaining lecture delivered in Cooper Institute on Saturday evening, November 6th, said it was his privilege to visit Iceland last summer, the little island which boasted a republican civilization for the past 1,000 years. He went there to represent lican civilization for the past 1,000 years. He went there to represent America at the great millennial celebration. The population of the island was 70,000, and they were admirable representatives of the hardy Norse stock from whom Anglo-Saxons had inherited so much of their brawn and pluck. The capital, which had a population of about 1,700, contained a jail. This jail was built about thirty years ago, but it never had had an inmate, with the exception of the jailer.

The Icelanders, owing to numerous volcanic eruptions of late years, cover-

volcanic eruptions of late years, covering the country for miles with lava and asther, and other causes, have in conthe United States territory of Alaska. The Island of Kodlac and the Peninsula of Alaska, situated between the 59th and 62d parallel North latitude, have been selected for their future homes.

Their present home in Iceland is situated between the 63d and 68th degree of north latitude.

Howard county in this state has a railroad debt of \$850,000, contracted to secure the building of railroads through it, and yet she has but one road, the Louisiana and Missouri River road, to which \$400,000 was subscribed, having never done more than to grade a road bed through the county. The bonds are drawing 7 per cent in-terest, and the people are very natural-ly getting tired of paying this enor-mous tax without receiving some bene-fit from it.—Mayseille Register.

There are in Berlin 1,906 manufactories, of which 777 are worked by steam power, 29 by gas engines, seven by air engines, and the motive power of the remainder is supplied by hand power.

If an editor runs about trying to drum up subscribers and advertisements, the people say he is lazy and neglecting his business; if he stays in his office and works like a son of a buttering ram, they say he is reticent, un-sociable, and they will have nothing to do with him or his paper. What is a poor ce il to do?—Brunswick News.
